### Our Saviour Lutheran School, Aberfoyle Park Master Plan ARCHITECT PETER MOECK

0]

# CONTEXT

### PURPOSE, VALUES AND CORNERSTONES

Our Saviour Lutheran School and Church are co-located in the leafy Aberfoyle Park south of Adelaide with street frontages to Taylors Road West, Park Avenue and Southbound Avenue. The address is 28 Taylors Road West, Aberfoyle Park.

The campus operates under the Strategic Plan 2020-2023 which was the outcome of strategic planning and extensive consultation in 2019. The statement of purpose is 'A community – inspiring growth and self-worth' and this is based on the values of truth, connectedness, curiosity and service.

The cornerstones within the Operational Plan that underpin the educational approach include:

- Learning: solid foundations with dynamic learning mindsets
- Community: an ecosystem of partnerships, relationships and family
- Well-being: connecting meaningful ways of knowing and being
- Care: prudent and wise stewardship and governance

Our Saviour Lutheran School is an accredited International B School and enhanced PYP provider offering Foundation to Year 7. Year 7 will depart to Secondary School in 2022. A reduced capacity will provide an opportunity to rearrange and repurpose. The intent is to relocate the student cohorts so that there is a logical Year level flow through the campus.

#### EDUCATIONAL NEEDS

The objective is to grow the existing student numbers and cap enrolments at 150 students. Cohorts are ideally a maximum of 26 in each Year level. The current arrangement is Foundation, Year 1/2, Year 3, Year 4, Year 5/6 and Year 7 within 3 buildings. The current student cohort comprises 111 and the projections for 2021 are 105.

The learning principles at Our Saviour Lutheran School are inquiry-based with a focus on conceptual understanding developed in local and global contexts. Effective teamwork and collaboration with learning approaches differentiated to meet the needs of all learners. Student voice, choice and ownership are encouraged.

A series of forums were held with students, staff and community to gather information about perceptions and aspirations. Covid-19 limited the ability to interact in-person with students and delayed the program. Minutes included as Appendices to this Master Plan Report summarise the discussions. Views and suggestions from diverse stakeholders have informed the content of the proposed staged redevelopment. It is hoped that ownership of process will lead to ownership of outcome.

### THE CAMPUS

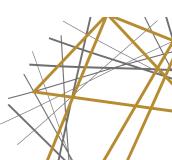

The Church was established in 1982 and the development of the education campus followed in 1984. The original building opened in 1986 is currently used by Years 3 & 4. Progressive development of four buildings opened in 1990 – 1993 were located to form a central courtyard which remains a feature and a useful outdoor gathering space. The Music Centre was opened in 1996.

The 'Building Education Revolution' project was Karnkendi opened in 2010 and Administration utilising a reworked Manse was opened in 2011. Architects who contributed to the buildings and campus development include Paul Campbell and Associates 1989–1993, Geof Nairn Architects 1986 and 1996, Williams Architects in 2000 and Arkvale Architects 2009 –2011.

The campus is 2.19 hectares excluding the site area used for Church, shared carpark and Manse. The total existing floor area is 1393 m2. Based on the BGA global area guidelines of 7.5 m2 per student, this floor area can provide for 185 students. Accordingly, the focus will be to rework existing buildings to effectively cater for contemporary learning needs and expectations.

## 02

Aberfoyle Park Master Plan ARCHITECT PETER MOECK

## MASTER PLAN

### OBJECTIVE

The objective of the Master Plan was to investigate all options for the staged redevelopment of the buildings and grounds to address capacity, provide contemporary learning environments and facilities that are cost effective and represent best value.

### **BRIEF REQUIREMENTS**

The Master Plan Brief was required to consider and address the following matters:

- Staged redevelopment to holistically upgrade existing facilities with adaptive reuse and refurbishment
- •
- Connected indoor and outdoor learning environments Logistics and staging in order for the School to remain in continuous operation and minimise disruption ٠
- Provide shade and shelter and connectivity between buildings ٠

#### Rethink and improve the configuration and location of passive and active play spaces •

### EXISTING FACILITIES AREA SCHEDULE

Element	Opened	Area
Karnkendi Multi-purpose BER Hall GF 646 m2 and Mezz 172 m2	2010	818 m2
Karnkendi unenclosed covered area		112 m2
The above two items are excluded from BGA Area Calculations		
Administration in former Manse	2011	233 m2
Stores and Uniforms and Staff Amenities in former Student Amenities altered 2010	1992	90 m2
Foundation and Year 1 & 2	1993	152 m2
German, Chaplain, Special Education, Sensory Room and Offices in former Canteen	1990	295 m2
Library, ICT Suite, Server Room, Stores and Work Room altered in 2000	1992 / 1993	270 m2
Year 5-7	2000	157 m2
Years 3 & 4	1986	157 m2
Store Shed		57 m2
Music Centre	1996	137 m2
Total gross building area		1,548 m2
Less 10% for wall thicknesses		(155 m2)
Total Net Floor Area		1,393 m2
BGA Global Area Guidelines are 7.5 m2 / student for F-Y6 and 12 m2 / student Y7		
The above applied to 1393 m2 at 7.5 m2 / student		185 students
Enrolments capped at 150 students means existing area has more than required		
Existing School Site Area		21,936 m2
Existing Church and Car Park Site Area		6,727 m2
Existing Manse Site Area		1,050 m2
Sundry Sheds		107 m2
Unenclosed covered area and shade structures		615 m2

#### EXISTING FACILITIES AREA SCHEDULE

Refer to the National Construction Code Table F2.3 Class 9b Schools for sanitary facilities requirements.

User Group	WC Pan	Hand Basin	Shower
Students Boys	3 and 4 urinals will provide for 150	4 provides for 175	1
Students Girls	5 provides for 150	6 provides for 325	1
Unisex Access WC	2 provides for 15 F or 40 M	2 provides for 15 F or 20 M	
Staff	2 provides for 15 F or 40 M	2 provides for 15 F or 20 M	
External Use	Majority located in Karnkendi	Majority located in Karnkendi	

Our Saviour Lutheran School, Aberfoyle Park Master Plan

## 03

# **CONCEPT DESIGN**

### **DESIGN RATIONALE**

The existing site configuration has placed existing building around a central courtyard. Administration and Karnkendi have street frontage. Learning Support is accommodated within former GLA spaces offering Inclusive education, sensory room language and chaplain spaces together with office, meeting and PYP Coordinator. Library and associated ICT suite and the Annexe are located adjacent.

Pairs of learning spaces are grouped within three buildings accommodating Junior, Middle and Upper Primary Learning Communities. Whilst the existing covered external areas offer weather protection, they are narrow, dark and congested.

Existing buildings are primarily orientated with a northerly aspect. First impressions are of a Learning Village. The campus setting is attractive and well maintained. The grounds offer ample opportunity for active recreation and passive reflection.

Our Saviour Lutheran Church has strong and developing links with the School campus. The Music Centre and Karnkendi provide a range of specialist and community spaces. Utilisation of these facilities can be enhanced.

### **OPPORTUNITIES FOR IMPROVEMENT**

The focus will be on refurbishment and improvement of existing facilities to reflect the needs of students and staff within each Learning Community. Generous internal learning spaces can be provided by removing small rooms and alcoves to create larger Studio environments.

Significant opportunities exist by providing seamless connection of indoor and outdoor environments to generous covered areas lined with translucent multi-cell polycarbonate sheeting to attenuate UV but retain filtered daylight.

High level windows in south elevations and mid-level sills in north elevations can be reworked to provide glazed sliding doors and sidelights thereby increasing daylight and natural cross ventilation. Evaporative cooling and gas heating can progressively be replaced with reverse cycle air-conditioning units.

Purpose designed joinery for resources storage with sliding panel magnetic whiteboard surfaces and new wet areas internally and externally designed to be age appropriate will expand the affordances. A suite of new loose furniture purposefully selected in consultation with staff and students can add value by providing a range of comfortable and ergonomically sound options for sitting and standing.

Acoustic attenuation and display will be addressed with the provision of acoustic wall fabric on all walls to 2100mm high. A mobile large screen that can be placed in 3 locations per space means that the Learning Studios do not have a front.

The desired design outcome are generously proportioned spaces with a range of accessible activity settings and places for reflection that are light, airy and comfortable. New resilient floor finishes will cater for wet and messy activities, encouraging students to be creative.

Bag poles can be provided at 4 bags per pole within the COLA spaces. The flow of students will then be disbursed and directed through the new sliding doors.

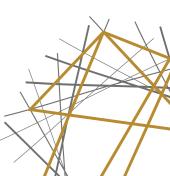

External environments comprise central courtyard, tired hard court, a remote green space that has issues with drainage and tired and dysfunctional arrangements for sport and recreation. It is proposed to swap the green space and the hard court in conjunction with expanded tiered seating, a significant covered area, compliant ramped access and decent catering facilities and amenities. It is also suggested that a full-size indoor court be provided as originally intended within Karnkendi.

### STAGED REDEVELOPMENT

The following Redevelopment Schedule lists the content of staged redevelopment of the campus for building works. The intent is to apply for funding assistance from the SA Independent Schools Block Grant Authority for all potential projects.

Each building stage is of a scale that is manageable in the context of continuous occupancy and operation and the ability of the Our Saviour Lutheran School to access and repay loans. It is envisaged that the total buildings and campus redevelopment could be completed over 15-20 years. The priority is to deliver Stages 01 - 04.

## 04

# Collaborate

### REDEVELOPMENT SCHEDULE

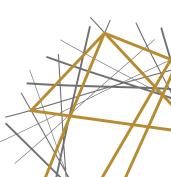

Stage	Potential Project Content	Works	Area
01	Redevelop the Middle Primary Learning Community. Gut and rework the existing building. Remove verandah. Years 3 and 4 temporarily relocate to the Chaplain and German Rooms and the latter into the Annexe and ICT Suite during construction. New Archives Store and Maintenance Shed. New covered areas, amphitheatre and stage with roof over.	Alterations Remove Demolition New Sheds Covered Area	144 m2 48 m2 60 m2 120 m2 168 m2
02	Redevelop the Recreation Precinct. Remove existing hard court and develop a green space and pathways with attention to drainage. Remove the top oval and construct a new full-size outdoor netball court. Demolish the shed and construct new outdoor kitchen, BBQ and amenities and expand the tiered steps with new stairs and ramps to bottom oval. Remove and salvage the existing playground.	Addition Green Space Hard Court Covered Area Grounds	32 m2 800 m2 630 m2 450 m2 700 m2
03	Redevelop the Junior Primary Learning Community. Gut and rework the existing building. Remove verandah. Years 5 and 6 temporarily relocate per Stage 01. Addition to provide accessible student amenities. New covered area, tiered steps and reworked Courtyard with a new stage below the existing shade structure.	Alterations Remove Addition Covered Area Grounds	144 m2 48 m2 9 m2 136 m2 1000 m2
04	Redevelop the Upper Primary Learning Community. Gut and rework the existing building including for Language, Wellbeing and Maker Space. Demolish covered area, part existing building to north and the existing building to south. Add new Learning Common. Alter the IE and PYP Office. Relocate the shade structure. New covered areas and links across to Middle Primary, Sensory Room and to Library. Expand the Garden of Eden and reuse paly equipment salvaged in Stage 02.	Alterations Demolition Relocate Addition Covered Area Grounds	272 m2 320 m2 55 m2 75 m2 472 m2 140 m2
05	New stairs and compliant accessible ramps to connect School and Church precincts.	Grounds	270 m2
06	Redevelop the ICT Suite and the Annexe. Gut and rework the existing building with new entries. Relocate the Server Room. Convert the Annexe for use as Office space and Uniform Shop. Include for replacement of verandah with new covered area. Refurbish the existing Library. Rework the entry location and infill the recesses to add storage.	Alterations Remove Covered Area Refurbish Addition	132 m2 33 m2 64 m2 138 m2 8 m2
07	Redevelop the Inclusive Education and Sensory Room. Gut and rework the existing building. Include for replacement of verandah with new covered area.	Alterations Remove Covered Area	106 m2 33 m2 64 m2
08	Refurbish the Music Centre.	Refurbish	137 m2
09	Addition to the south side of Karnkendi to provide a full-size indoor netball court.	Addition	228 m2

The proposed net floor areas upon completion of the staged building redevelopment comprise:

- Learning Village, Administration, Library, Inclusive Education, ICT Suite, Annexe and Music Centre excluding sheds and Karnkendi with addition totals 1388 m2 which at 7.5 m2 per student can cater for 185 students
- Covered Areas, Links and shade structures 1070 m2 •
- Roof over the recreation precinct 450 m2 •

## 05

## Our Saviour Lutheran School, Aberfoyle Park Master Plan ARCHITECT PETER MOECK

#### CONSTRUCTION METHODOLOGY

The existing construction methodology and proposed alterations comprise:

- Brick veneer with timber wall framing and trusses
- Reinforced concrete raft footings and slabs
- Metal deck roof forms clad in corrugated colorbond finish
- Render the existing face brickwork
- Thermal insulation to walls R3.0 and roof spaces and ceilings R4.0
- Addition for Student Amenities and Learning Common steel framed construction clad with CFC
- Commercial section aluminum framed windows and doors including glazed sliding doors
- Ceilings to include corrugated perforated metal sections and acoustic attenuation
- Plasterboard wall and ceiling linings and timber skirtings
- Acoustic wall fabric to 2100mm on all walls
- Marmoleum to Learning Areas and commercial grade carpet tiles to Learning Commons, ICT Suite, Offices
- Purpose designed joinery for resources storage with magnetic whiteboard sliding panels and large screens
- Remove gas heating and evaporative cooling and replace with reverse wall split cycle air-conditioning
- Remove existing steel framed verandahs and roof and replace with new verandahs and covered links
- Verandahs steel framed column and beam with aluminum section rafters and 18mm multi-cell opal sheets
- Feature spotted gum each side of all Verandah and Link posts and for new and replacement fascia beams
- Wash-back concrete to pathways
- New steel portal frame and Aramax roof for new covered area over recreation precinct
- Grounds rework includes courtyard, green space, hard court, tiered steps, new stairs, ramps and amphitheatre

#### LIKELY ORDER OF COSTS

Independent advice has been sought from Heinrich Consulting to establish Master Plan Cost Estimates. Refer to the document included in the Appendices to this Report dated 30 October 2020.

### RECOMMENDATION

The consultation phase associated with this Master Plan has allowed students, staff, Leadership Team, School Board, Parents and Friends at Our Saviour Lutheran School to articulate the burning issues. Forums have allowed the initial and revised Concept Designs to be tested and evolved.

The recommendation is that the 9-staged redevelopment of the buildings and campus be adopted as illustrated on the enclosed coloured architectural drawings. 3D perspectives are also provided together with a short movie containing a campus fly through. This illustrates the broad design intent of the built form.

#### **OUR SAVIOUR LUTHERAN SCHOOL MASTER PLAN MINUTES 01**

This document records discussion at a meeting held on Tuesday 17 March from 10 - 11.30AM at Our Saviour Lutheran School with Paula Skinner Principal and Peter Moeck Architect. Signed Acceptance of Master Plan submission was received dated 10 March.

Paula outlined that the School is targeting 150 students. Year 7 departs in 2022. Current student cohorts are arranged as Reception, Year 1/2, Year 3, Year 4, Year 5/6 and Year 7 within 3 buildings. Other buildings for Student Amenities, Library, Server Room, Teacher Resources, Annexe and ICT Suite, Inclusive Education, German, Chaplain, Music, Administration and the BER Hall. Existing Church and shared carpark to east and Manse to west of the School campus.

#### Program

Joint review of the proposed Activity Schedule. Assignment of dates for key activities as listed below.

Activity	Key Date
Site survey, services location and boundary identification by surveyors	18-20 March
Student Voice Year 5/6	2PM Wednesday 25 March
Staff Forum 01	3.30PM Wednesday 25 March
Receive the Detail Survey and soft copy of existing architectural drawings	Monday 30 March
Site and buildings audit and check measure confirming existing room use	10AM Wednesday 15 April
Prepare initial Concept Designs	Thursday 30 April
Present to School Council	7.30PM Wednesday 6 May
Refine the Concept Designs	Friday 8 May
Develop a Staging Schedule and obtain the Master Plan Cost Estimate	Tuesday 19 May
Staff Forum 02	3.30PM Wednesday 20 May
Prepare DRAFT Master Plan Report and present to School Council	7.30PM Wednesday 17 June
Prepare FINAL Master Plan and submit to AISSA BGA team	Tuesday 30 June

#### From Here

Paula is to contact Arkvale Architects and DesignInc to source a soft copy of all archived drawings associated with the staged development of Our Saviour Lutheran School and forward to Architect.

Surveyor to contact Paula and confirm dates to undertake the site survey fieldwork. This was subsequently arranged as listed above.

Paula to forward soft copy of the succinct Strategic and Operational Plans, current and projected enrolments. Paula is to confirm the lodgement date for the AISSA BGA Grant Applications in July 2020.

Consultations with students and staff and community is intended to seek feedback based on building and campus use, perceptions of space, what works and what needs to be improved?

Peter to share Schematic Design drawings for proposed Pavilion addition to the Church.

18 June 2020

### **OUR SAVIOUR LUTHERAN SCHOOL MASTER PLAN MINUTES 02**

This document records discussion at a meeting held on Wednesday 17 June from 3.30-5.30PM at Our Saviour Lutheran School with Paula Skinner Principal and Peter Moeck Architect. The Master Plan was placed on hold in April due to COVID -19. BGA funding approval has now been received. Tasks completed include Detail Survey received late March, check measure on 15 April, preparation of Existing Campus, Site and Floor Plans, Student Voice Year 5/6 and Staff reflections on learning spaces. Revised Program as listed below.

Revised Program and Activities	Key Date
Meet with Principal	3.30PM Wednesday 17 June
Prepare initial Concept Designs and scope of work descriptions	5 weeks
Develop potential Staging Schedule and obtain the Master Plan Cost Estimates	4 weeks
Briefing and Design Review with School Council	7PM Wednesday 19 August
Refine the Concept Designs, Staging Schedule and Estimates per feedback	2 weeks
Staff Forum	3.30PM Thursday 3 September
Prepare DRAFT Master Plan Report and present to School Council	7.30PM Wednesday 16 September
Prepare FINAL Master Plan and present to School community	Late September

#### **Education Brief and Enrolment Plan**

Paula is to prepare and issue these two documents as soon as possible. Refer to documentation submitted to AISSA BGA. Paula to forward a soft copy of the 4 posters on Office wall. COVID-19 and Year 7 departure are current challenges.

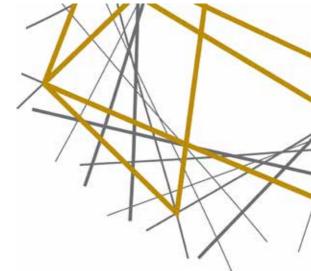

#### **Consultation Review**

works and what could be improved. The feedback was reviewed. Key issues comprise:

- Refurbishments should focus on improvements to learning spaces and first stage BGA application to be in 2022 • Existing evaporative cooling and gas heating to be progressively replaced with reverse cycle AC in each stage ٠ Connectivity between spaces and to outdoor learning with generous covered space and translucent roofing ٠
- Verandahs can be widened if existing pitch is continued rather than the bull nosed profile ٠
- Art sinks to be placed at age appropriate heights including in outdoor covered spaces ٠
- No comments received about Karnkendi, Administration or Music Centre ٠ Opportunities for external groups and community use to be explored ٠
- Storytime occurs in the Library for a Playgroup who also use the Church ٠
- Lunch Clubs by Church Youth and Shed Men fabricated large chess pieces for chess club ٠
- ٠
- School band, choir and musical rehearsal use Ensemble Room and 4 instrument teachers use the Practice Rooms Karate Club have previously hired Karnkendi for 2 nights per week and YMCA OSHC is accommodated in this facility Relocation of shed south of Year 3&4 to Shed Village provides space for outdoor learning and amphitheatre
- ٠ ٠ •
- Garden of Eden is being redeveloped with vegetables, flowers and herbs, chook house, compost and worm farm • The vision is for students to contribute to the weekly Church bread offering by adding fresh vegetables and eggs • Recycling efforts comprise cardboard and paper collection and organic scrap bins but could expand per Binshift

- Opportunity for endemic native planting to SW of campus
- Sandpit is needed and a review of age and appropriateness of play equipment and adjacency to learning cohorts Water pathway to shallow pond flows when it rains and is very popular with Nature Play to west of Karnkendi Fairs and Community Events were held each term in collaboration with the Church on oval and Carols in courtvard Need for accessible and compliant ramps from Hall to oval and from School to Church with improved stairs School Assemblies are held in the Church and morning teas follow which is a great community connector Pedestrian safety an ongoing issue for crossing on Park Avenue and Council propose a Wombat crossing in 2022/23

- Traffic flow into School enters at west allowing for gueuing and pick-up near verandahs for shelter and exit to east The flow from Foundation to Year 7 is anti-clockwise and accommodated in 4 buildings

- Paula forwarded a summary of consultations with staff and the Year 5/6 student cohort recording perceptions of what

  - Visual Arts and Musical in Karnkendi but fully fitted Dance Studio currently used to store Musical props

### Reflection of school learning areas Term 2 2020 – Staff and Year 5/6 students

### (Staff/Students)

Library/ Annex and IT	
What works?	How could we make it better?
Library:	Library:
Open spaces – large enough for classes to	More activities for kids to access at lunch times
gather	Set up more water hole learning spaces
Moveable furniture	Set up annex for working hub type situations
High ceilings – lots of places for decorations	Option to be able up between Annex and
Clean (not something librarian enjoys)	Computer room
Functional and easy to access things	Open up all three rooms
Good room temperature	Remove the elephant
Lots of natural light and lightings	
	IT Room:
Chairs are good and computers	Security
Good air conditioning	Blinds
Good seating	Heating/cooling
Flexibility of the working spaces	More natural light
	Workable whiteboard space
	Turn resource room into teacher prep-room as
	working in staffroom is difficult
	Better computers and tables
	Better windows in Annex
	Bigger whiteboard
	Make it more of a study area
	Make Annex more accessible

### (Staff/Students)

Inclusive Education, German and Chaplain	
What works?	How could we make it better?
Rainbow Room, sensory set up	Rainbow Room:
Spacious and uncluttered	Get rid of bricks, old fashioned
	More flexible modern furniture
German room feels spacious	Take out old pinboards
Good natural light	Concertina wall more able to open and close
	and able to open out to courtyard area
Benches outside classrooms	What is the point of the outside door to
Plants outside	carpark?
Very spacious	Sharon's office has too many doors
Bright and good lighting	Better use of courtyard
Lots of windows	Cupboard in tutoring room removed
	Change the bullnose verandas makes classroom
	dark

### Reflection of school learning areas Term 2 2020 – Staff and Year 5/6 students

### (Staff/Students)

### Middle Primary Years 3&4 What works?

The openness The lounge area Breakout spaces Cleaner and brighter

### Whiteboard space Split up desks The calming rooms/colour Bag racks and storage works

You can move the furniture

1	
	PYP Office:
	Take out all things Kitchen
	Put in shelving
	Use space better re offices
	Blinds
	Carpet
	Turn whole block into R/1 Block
	More whiteboards
	More storage space

More storage space More use of outside learning space Make it not so colourful

How could we make it better?
Smaller rooms better utilised
More natural light
Reduce glare to whiteboards
Provide a wet area
Storage
Better heat/cool
Whiteboard all way round the walls
Exposed bricks to go
Bigger windows on south side
Carpet etc
Power points in right spaces
Outside
Brickwork rendered
Move maintenance shed
Create outdoor learning space with taps
Small amphitheatre
Bifold doors out back of classrooms
Changing wall colour
Seating for outside
More shade
Clear sound proof sliding doors
Cave space not for teachers storage
Indoor plants and native
Outdoor blinds

## (Staff/Students)

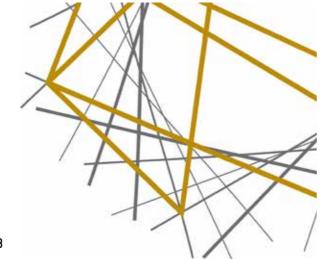

Junior Primary Foundation, Years 1&2	
What works?	How could we make it better?
Sink in classroom very important	Open up to playground
Wet area works but would be good bigger	Storage
Undercover spaces however uneven and windy	Whiteboard
Great pin up space	Better lighting
	Blinds for glare
Good work space	Screens on door
Moveable whiteboard	Functioning skylights
Good seating and tables	More pin up space
	Remove outdoor tanks always flooding
	Waterproof pergola as bags get wet
	Better bag areas
	Bigger windows
	New undercover shelter learning space and bag
	space
	No sinks outside

### (Staff/Students)

Courtyard and Covered Area	
What works?	How could we make it better?
Blue shade sails	More seating
Stage and grass area	Sails bad colour
Gardens good	Screening at end of netball court to hide sheds
Benches good	Remove yellow poles
	Blinds for outdoor spaces winter/summer
The bushes	Decking for Year 3&4 building
The deck	Remove bullnose verandas
Steps and poles	Upgrade walkway from church to school
	Lots of garden space that's unusable
	Dead space behind Year 3&4
	Storage space repurposed
	Sports shed is an eyesore
	Water feature
	Speakers
	Poles blue not yellow
	LED lighting around stage
	Swimming pool
	Skate park
	New courts area

## (Staff/Students)

Upper Primary Years 5-7	
What works?	How could we make it better?
Big windows	Cooling
Furniture in 5/6	Whiteboards
Good heating	More shelter and seating outside
Neutral colours	Cabling hidden
	Upgrade storage spaces
	Better connection between indoors and
We have a classroom	outdoors
Steps are also seats	Better seating outside
Seating options inside	Bigger whiteboards
The whiteboards	Better shade

21 August 2020

### **OUR SAVIOUR LUTHERAN SCHOOL MASTER PLAN MINUTES 03**

This document records discussion at a consultation with Parents and Friends held on Wednesday 19 August from 7.30-8.45PM at Our Saviour Lutheran School with Paula Skinner Principal, Barb Jacbson, Daniel and Lauren Flakelar, Gail Painter, Kari Kennett, Michelle Cox and Peter Moeck Architect.

Paula will be on leave for 7 weeks which impacts the program. Revised Program below.

Revised Program and Activities	Key Date
Consultation with Parents and Friends	7.30PM Wednesday 19 August
Prepare initial Concept Designs and scope of work descriptions	5 weeks
Design Review at Staff Forum	3.30PM Thursday 24 September
Refine Concept Designs, prepare Staging Schedule and Master Plan Estimates	4 weeks
Prepare a DRAFT Master Plan Report	2 weeks
Design Review with School Council	7PM Thursday 5 November
Prepare FINAL Master Plan and present to School community	1.30PM Friday 20 November

#### Consultation

Joint exploration of the challenges and opportunities at OSLS. Key issues comprise:

- Expand the covered viewing area at Oval including upgrading of BBQ facilities and provide amenities
- Provide ramped access to Oval
- Remove building west of hard court to create an outdoor play space for Junior Primary
- Relocate content of the above building by repurposing some existing spaces
- Consider swapping the hard court and top oval
- The above could place a full-size basketball and netball court on the area that has issues with drainage
- The benefit is that the viewing and social area is double sided for hard court and bottom oval functions
- Relocated grassed area between Junior and Middle Primary will soften the space and link to Courtyard
- The above could provide an improved setting for outdoor 'connect' events and gatherings
- Increase covered areas and provide places for communal eating
- Consider enclosing the area between buildings to remove the wind tunnel and use as a Learning Common
- Relocate shed and improve the area north of Music Centre which feels isolated and disconnected
- Pedestrian access from Church carpark is not a welcoming entry
- Cater for a variety of recreation activities including hand ball and chess
- Provide a cover over the hard courts for all weather use
- A rock-climbing wall and adventure play .
- Enhance the 'dead zones' south of Administration and east of Library ٠
- Provide outdoor learning spaces and enhance the 'Garden of Eden'
- Dance Studio in Karnkendi said to be 1000mm too narrow to hire to an external tenant and mezzanine has no lift ٠
- Art Room adjacent to Dance Studio is remote and only access is using stairs to mezzanine and hard to supervise ٠
- Parents and Friends can only access external toilet and a dysfunctional canteen and BBQ for Saturday sport ٠
- Management of Karnkendi could be reviewed to allow access to ample amenities and Kitchen on Saturdays
- The areas south of the buildings are more private and the north side more public and part of Courtyard
- Examine location and flow of junior, middle and upper primary learning communities
- Junior students need to be close to amenities
- Consider removing central small rooms to provide a pair of connected Learning Studios
- Extend verandahs to reduce congestion

ARCHITECT PETER MOECK

- Inclusive Education could go back to one room and German into the annexe
- Hard court to be closer to existing amenities
- ICT Room has a purpose to teach the use of desktops •
- Secure area for a therapy dog west of Learning Support
- East side of campus facing the carpark is very public and difficult to supervise

22 October 2020

### **OUR SAVIOUR LUTHERAN SCHOOL MASTER PLAN MINUTES 04**

This document records discussion at a Staff Forum held on Thursday 24 September from 3.45-5PM at Our Saviour Lutheran School with Paula Skinner Principal, 10 staff members and Peter Moeck Architect. Peter tabled initial Concept Designs and a DRAFT Staging Schedule for consideration and comment.

#### Consultation

General acceptance of the design intent. Key issues and suggested revisions comprise:

- Allow for a future full-size indoor court within an extended Karnkendi
- Reposition the new full-size outdoor netball court south to allow for the above future Hall extension Reposition existing playground to south of Upper Primary

- The above will require reshaping of the pathways within the reworked Courtyard
- Provide fenestration in east wall of Year 5
- Rework the existing Library entries, expand teacher resources storage and relocate door access to south side
- The external recesses near access to ICT Suite and Annexe could be infilled and doors relocated Office for PYP Coordinator, Deputy Principal, meeting space, Server Room and Uniform Shop into Administration

- Design intent to rework the flow of student cohorts from Junior to Middle to Upper Primary anti-clockwise accepted Sports storage to be placed west of new hard court
- Music Centre to be refurbished
- Provide a roof over the double-sided outdoor stage
- Bike racks to be under cover

The alternative to adding floor area to Administration is to reconfigure the Annexe for office accommodation, meeting space and Uniform Shop. Given the existing generous existing floor area provision, rework of existing is proposed rather than a further addition.

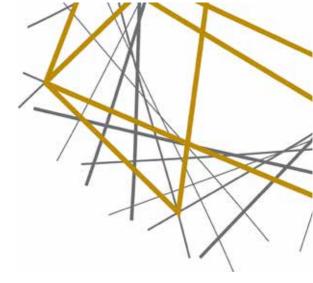

#### From Here

Peter to revise to Concept Design to account for the feedback listed above. Revision A to be issued in soft copy. The Staging Schedule to be expanded to account for added projects in Library, Administration, Music Centre refurbishment and extension of Karnkendi for a full-size indoor court.

Peter to brief the Cost Consultant and coordinate the Master Plan Cost Estimate. The revised Concept Designs, Master Plan Cost Estimates and a DRAFT Master Plan Report are to be presented to School Council at 7PM on Wednesday 4 November. The 3D modelling will follow and be presented to the Community Launch on 20 November.

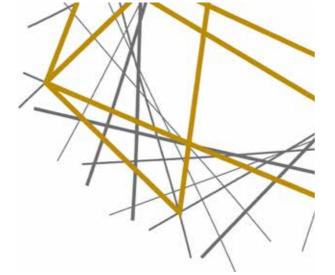

# ARCHITECT PETER MOECK

- Major pedestrian route to hard court and oval will now be along the south face of Upper Primary
- Clear vegetation east of Upper Primary to provide a dedicated and covered outdoor learning area
- The above could be an addition to east side and use the small Store for access
- Alternative Uniform Shop location is in former Dance Studio on mezzanine to Karnkendi

The order and content of the Staging Schedule is acceptable and further projects are to be added

8 November 2020

### **OUR SAVIOUR LUTHERAN SCHOOL MASTER PLAN MINUTES 05**

This document records discussion at a School Council meeting held on Wednesday 4 November from 7-8PM at Our Saviour Lutheran School.

Those in attendance include Paula Skinner Principal, Ben Dale Bursar, Pastor Andy Kowald Our Saviour Lutheran Church, School Council members Todd Wellington, Mirium Morris, Ben Painter, Bronwyn Whelan, Stephanie Waterhouse, Hannah Webster and Peter Moeck Architect. Peter presented the DRAFT Master Plan Report.

#### Consultation

Acceptance of the DRAFT Master Plan Report. Suggestions which can be added to staged projects at a later date:

- Include for a roof over the relocated hard court
- Locate and develop a new nature play space for Foundation and Year 1 on the east side of the building
- The above will be visible from the Church and shared car park and require secure fence realignments
- Visibility of School activities from Playgroup location in the Church could assist in securing new students
- Extend roof over stairs between School and Church but this will block views to west
- The staging can be reconfigured or divided into smaller parts
- Junior Primary Learning Community become the first stage of work
- Existing Courtyard has drainage issues that need to be addressed when reworking
- Roof water could be directed to recharge the aquifer
- Existing rainwater tanks are full, and this resource is not used
- The above could be used for toilet flushing or the tanks relocated to irrigate the Garden of Eden
- A lift should be added in Karnkendi for equitable access to the mezzanine
- New solar arrays to be considered and these can be placed on the existing north facing roof areas

#### From Here

Master Plan Report to become FINAL issue by incorporating these Minutes and the 3D perspectives.

3D modelling will follow and be presented to the Community Launch at 1.30PM on 20 November along with two bound colour hard copies of the FINAL Master Plan Report.
